

# APOLLO

FALL 2014

## AFTER SCHOOL PROGRAM

REGISTRATION OPENS  
**JULY 15TH**

The Apollo After School Program provides an affordable, safe and reliable option to parents who are unable to pick up the children right after school.

REGISTER ONLINE AT  
[www.ApolloAfterSchool.com](http://www.ApolloAfterSchool.com)

Our experienced teachers have a formidable track record of managing after-school programs.

We offer a variety of fun and educational activities that integrate the physical, emotional, intellectual and social needs of your child. Our programs are designed to enhance self-esteem and promote creative expression.

### OUR APPROACH

Enrolled children participate in enrichment classes, structured play time and supervised homework sessions. They also get to enjoy an outdoor playground, a variety of engaging indoor activities and extended learning experiences. We encourage them to verbally engage their peers with respect. This practice builds their confidence and develops their ability to communicate with others.

We provide a dedicated homework area staffed with qualified educators who assist children when they need extra help completing assignments.

# OUR WEEKLY CLASSES

(included in the monthly tuition rate)

## ARTS & CRAFTS

**Mondays: September 8th - December 15th**

Does your child love the experience of creating something they can use, or in making a work of art for others to enjoy? In Arts & Crafts Club, young Apollo students will learn many techniques to turn their ideas into reality under the guidance of our Apollo staff. Club members will use their creativity and imagination to make many objects for gifts, decoration, or their own practical use- you'll be amazed at the fun craft works they bring home to you!

## YOUNG EXPLORERS

**Tuesdays: September 9th - December 16th**

Earth's circumference is approximately 24,901 miles (40,075km). That's a lot of ground to cover! Fortunately, our Young Explorers club is up to the challenge. Students will learn about mysterious rainforests, towering mountains, sweltering volcanoes, exotic cultures, and many other wonders this amazing planet has to offer- along with fun travel tips and the great explorers whose daring gave us the maps and charts we take for granted today. They will even learn a little bit about outer space, and the challenges they will face as the future explorers of tomorrow!

## BOARD GAMES CLUB

**Wednesdays: September 10th - December 17th**

Whether in games of chance or games of skill, board games are an incredible source of fun, social interaction, and mental activity. Students in this club will play many of their favorite board games, and even learn some new ones to teach their parents. Kids will learn multiple strategies and styles of play from our Apollo staff, for many timeless games that they can play with friends and family across their lifetime, with healthy instruction in the value of good sportsmanship and critical thinking along the way!

## BOOK CLUB

**Thursdays: September 11th- December 18th**

While it may seem like everywhere your child turns there is a touch-screen calling to them, there is still nothing that opens up the world of imagination and possibility like a good book. In this club students will join the next generation of readers and thinkers through age-appropriate print and literature. By reading both quietly and out loud, Book Club students will greatly improve their ability to determine meaning from the written word along with public speaking skills and listening skills. Each reading experience will be guided by our Apollo staff and will include a group discussion to encourage the exchange of ideas and individual interpretations. Watch your child discover more about their world through a book - great readers often become great thinkers!

## APOLLO BRICKS

**Fridays: September 12th- December 19th**

Everybody likes to build! Creating new objects has always been at the core of human existence, and is one of the most rewarding and fulfilling activities for the old as well as the young. In Apollo Bricks, your students will learn many basic building techniques and will be encouraged to put their imaginations and hands to work in making their ideas turn into reality.

The Apollo After School enrichment program runs Monday through Friday and offers a range of activities to keep children safe and active until parents can pick them up. Our programs are designed to enhance their self-esteem and promote creative expression.

At the end of the school day, Apollo students will be escorted to our meeting place where they get a tasty and nutritious snack. After refreshments, children begin their enrichment classes. Apollo After School offers a variety of activities that integrate physical, emotional, intellectual and social needs.
