

LEGO JR. & ADV. ROBOTICS AFTER SCHOOL PROGRAM (Tuesdays 2:45pm – 4:00pm)

Learn to build and program once a week with Bricks 4 Kidz. Lego Robotics class provides kids a good opportunity to learn simple machines, engineering and science in a fun way using lego bricks. On top of building Advanced Robotics class student engineers will learn the fundamental of robot engineering as they program their robot to move, spin, roll, throw and react.

Lower grade Kids (K–3) are recommended to participate Jr Robotics and higher grade or students who did Bricks 4 Kidz Jr. Robotics before can join Advanced Robotics.

Start Date: 10/2/2018 to 12/11/2018 (2:45PM–4:00 PM Every Tuesdays)
