

Bricks 4 Kidz Coding Afterschool Program

(Fridays 2:45PM – 4:00PM)

BRICKS 4 KIDZ programming with Scratch offers students a fun and meaningful introduction to programming. Students learn to program games and activities by snapping together code blocks instead of writing many lines of code. Scratch's puzzle like design prevents young coder from getting frustrated with errors related to abstract concept. In class students learn basic programming logic, improve math skills, and create games and activities using Scratch. This program is recommended for **Grade 3rd** and up!

Start Date: 1/11/2018 - 3/15/2018 (Every Fridays 2:45 PM - 4:00 PM)
